

Planning Application DC/17/102703

Demolition of existing buildings (Axion House), 1 Silver Road, SE13 and the construction of buildings ranging from ground level plus 4 to 15 storeys in height, to provide 153 residential units, and flexible B1/A1/A3/D2 commercial uses, associated landscaping works, vehicular access, cycle and car parking

Response to planning application submitted by Roger Stocker in November 2017:

“Lewisham Cyclists would like to comment on the above planning application.

We would like to see the developers build (or fund) a link towards Ladywell/Molesworth Street either under or over the railway which has always been a long term objective for National Cycle Network 4. A bridge was built across the river by the 256 Lewisham High Street, London, SE13 6JX development and a similar link would help in achieving this aim.

The transport assessment does state that Ladywell is a useful public transport link and this application part funding the link would assist future residents to travel sustainably which is key to many Lewisham Council policies.

Please can you acknowledge this email.”
